

Meet the TEACHER

In 2015, I graduated from Minnesota State University Moorhead with a degree in Early Childhood Education. I have been teaching second grade at Chokio-Alberta for 5 years. One of my favorite things about teaching at C-A is the small class sizes. This really allows you to get to know each of the students that you have in your class.

Some things that I enjoy most about teaching are, being able to see the academic growth each student has made through the year and also seeing the excitement students have about learning.

Besides teaching some of my other favorite things are traveling, being at the lake, and spending time with family and friends.
